

Anti Leptin

Mouse monoclonal antibody, biotinylated

Subclass: IgG1/k

ABS 022-11 B

PRODUCT NO.

PRESENTATION

Preparation: Biotinylated
 Content: 100 µL, 1 mg/mL
 Solvent: 0.01 M phosphate buffer, pH 7.4, with 0.5 M NaCl
 Storage: In the dark at 4-8°C

ANTIGEN

Leptin, also called obesity factor, is a protein produced by adipose tissue, which has a regulatory influence on food intake, energy metabolism and reproduction. Leptin may also play a role in immune and inflammatory responses and hematopoiesis

IMMUNOGEN

Recombinant leptin (human)

SPECIFICITY

ABS 022-11 binds human leptin

EPITOPE SPECIFICITY

The epitope of ABS 022-11 differs from the epitope of ABS 022-03 but overlaps with the epitope of ABS 022-06

REACTIVITY

ABS 022-11 binds free leptin in solution. The ELISA dilution guideline applies to leptin coated directly at 1.0 mg/mL. In sandwich ELISA, ABS 022-11 works as a detection antibody with ABS 022-03 as capture antibody.

CULTURE MEDIUM

RPMI 1640 with 10% fetal calf serum

FUSION PARTNER

SP2mIL6.

IMMUNIZATION

Female BALB/c mice immunized i.p. with immunogen adsorbed onto Al(OH)₃

APPLICATION

Method	Usability	Dilution guideline	References
ELISA		1:5000	
Immunoblotting			
Immunohistochemistry			

The dilution guideline for ELISA is based on use as detection antibody for antigen coated at 0.1-1 µg/ml. Users should determine the optimal dilutions for their own purposes.
